Hide the Spider Activity

sofa

web
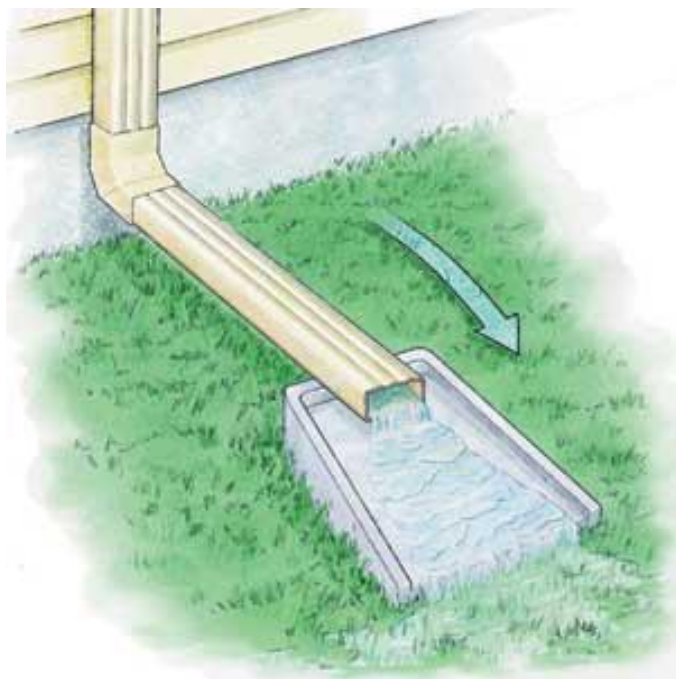

Assembly:
1. Print on cardstock
2. Cut out pieces leaving enough edge so they are big enough for the spider to hide behind
3. Laminate for durability and add scratchy side velcro (feltboard) or magnets (magnet board)-- make sure velcro/magnets are placed on top so there is room for the spider to "hide"

Playing the game:
1. Introduce the students to Itsy Bitsy (the name of the spider)
2. Starting with the more familiar pictures, show the students one at a time asking what it is
3. Once identified, place each picture on the board
4. Once all pictures have been identified, turn the board around & hide the spider under one
5. As the students to help you find Itsy Bitsy by saying "Itsy Bitsy, are you under the (name of the first picture on your board)"
6. Dramatically pull the picture off the board and continue until Itsy Bitsy is "found"
7. Then hide her again & repeat
